

TRAVEL REPORT

Purpose : Coordination and Documentation of Eco-Explorer and Capturing of Materials for Earth Day Celebration 2026
Destination : PENRO Lanao del Norte and CENRO Iligan City
Date : April 20-22, 2026

Activities Conducted	Highlights of Accomplishments/Agreements/Commitments Reached	Recommendation/ (if applicable)
1. Coordination and Documentation of Eco-Explorer and Capturing of Materials for Earth Day Celebration 2026	In celebration of Earth Day 2026, a three-day documentation activity titled <i>Eco-Explorer</i> was conducted from April 20 to April 22, 2026. The initiative aimed to capture environmental features and gather insights from various stakeholders to promote environmental awareness and sustainability. The activity focused on collecting visual materials such as landscapes and conducting interviews to highlight the importance of protecting natural resources. From April 20-22, 2026, the Eco-Explorer documentation was conducted in Iligan City and Lanao del Norte as part of the Earth Day celebration. On the first day, the team captured video footage of natural attractions such as mountains, waterfalls, and coastal areas in Iligan City, while also conducting interviews with youth to gather their perspectives on environmental protection and sustainability, highlighting both ecological beauty and existing concerns. On the second day in Lanao del Norte, interviews were conducted with student On-the-Job Trainees (OJTs) and personnel from the Department of Environment and Natural Resources (DENR), focusing on practical actions and policies to help save the environment, with responses emphasizing conservation, responsibility, and community involvement. On the final day, the team returned to Iligan City to continue documenting scenic landscapes and conduct additional youth interviews, completing the collection of visual and narrative materials for the Eco-Explorer presentation.
